Re: BPH-910703MJ
Beaumont, CA
(MM Docket No. 92-310)

Dear Madam Secretary:

Lauryn Broadcasting Corporation hereby amends its above-referenced application with the submission of an engineering statement regarding the effect her proposed station would have on FM Translator Station K201AR.

Sincerely,

Lauryn Nicole Cox
President

TECHNICAL STATEMENT

This Technical Statement supports the amendment to the application of Lauryn Broadcasting Corporation ("Lauryn") for a new FM Broadcast Station to operate on Channel 265A at Beaumont, California.

In response to the Hearing Designation Order released January 21, 1993, the Commission expressed concern that the proposed facility would interfere with a FM translator station K201AR, Banning, California (BLFT-861110TB). It is proposed to locate the Channel 265A antenna on the same existing tower as the translator. The FM antenna will be located at 12.19 meters above ground level while the translator antenna is located 5.97 meters above ground level. There will be no reaction between the proposed antenna and the translator antenna. The transmission line for the FM station can be located so as to minimize any effect this transmission line will have on the translator antenna.

It is, therefore, our belief that the facility proposed by Lauryn will not affect the operation of K201AR.

Lauryn has already stated in Exhibit #3 of its application that it will follow the guidelines of §73.318 of the Commission's Rules to follow good engineering practices to satisfy any complaints.

We have tried to be as accurate as possible in the preparation of this report. Should there be any questions concerning the information contained herein, we welcome the opportunity to discuss the matter by phone (912) 638-5608.

AFFIDAVIT AND QUALIFICATIONS OF CONSULTANT

State of Georgia)
St. Simons Island) ss:
County of Glynn)

WILLIAM G. BROWN being duly sworn, deposes and says that he is a broadcast technical consultant and is an officer of Bromo Communications, Inc. Bromo has been engaged by Lauryn Broadcasting Corporation to prepare the attached Technical Exhibit.

His qualifications are a matter of record before the Federal Communications Commission. He has been active in broadcast engineering since 1957.

The attached report was either prepared by him or under his direction and all material and exhibits attached hereto are believed to be true and correct.

This the 24th day of February, 1993.

WILLIAM G. BROWN
Affiant
